Great for an old-fashioned, puckered appearance after washing. Perfect for machine quilting or experienced hand quilters. Has great drape, breathability and resists bearding. It is NOT recommended to pre-wash as it frequently shrinks. May have seeds and plant residue that can release oils and stain fabric.

| Material | Special Applications | Needle Punched | Scrim | Approx. Loft | Shrinkage | Maximum Distance Between Stitches | Color | Item # | Width | Length |
|---|---|----------------------------|-----------------------|--------------|-----------|-----------------------------------|--------------------------|----------------------------|--------------------------|--------|
