Cotton/polyester blends have good drape and breathability. They are available in a variety of low to medium lofts and also resist bearding. They are great for machine quilters and are easy for beginning hand quilters. Avoid shrinkage by not pre-washing.

Material	Special Applications	Needle Punched	Scrim	Approx. Loft	Shrinkage	Maximum Distance Between Stitches	Color	Item #	Width	Length
Hobbs Heirloom 80% Cotton 20% Resin Bonded Polyester	our most popular batting; light or dark quilts	yes	no	1/8" +	3 - 5%	4"	Natural	HLBY-96	96"	30 yds
								HLBY-120	120"	30 yds
								PK-HL-90	90"	108"
								PK-HL-120	120"	120"
	white quilts						Bleached	BHLBY-108	108"	30 yds
	PK-BHL-120							120"	120"	
	dark quilts						Black	DKHLBY-108	108"	30 yds
	PK-DKHL-90							90"	108"	
PK-DKHL-120	120"	120"								
The Warm Company 87% Cotton 13% Polyester	has breathability, but less drape; nice for tabletoppers, but may prove too heavy for wall quilts	no	yes	1/8"	3 - 5%	up to 10"	Natural	Warm & Natural 90"	90"	40 yds
					Warm & Natural 124"			124"	30 yds	
					pre-shrunk		Bleached	Warm & White 90"	90"	40 yds
					Warm & White 124"			124"	30 yds	
The Warm Company 80% Cotton 20% Polyester with 100% Cotton Scrim	no glues or chemical odor	yes	yes	1/16"	3%	up to 10"	Natural	Warm 8020	110"	25 yds
