

Material	Special Applications	Needle Punched	Scrim	Approx. Loft	Shrinkage	Maximum Distance Between Stitches	Color	Item #	Width	Length
----------	----------------------	----------------	-------	--------------	-----------	-----------------------------------	-------	--------	-------	--------

WOOL is a natural insulator and is typically preshrunk. The resiliency of the fibers from different animals enhance the quilting stitches. While wool is soft and drapable, it may have inconsistent loft.

Hobbs Heirloom Superwashed Wool Resin Bonded	spray-bonded for added strength	no	no	1/4 - 3/8"	3 - 5%	4"	Natural	WLBY-108	108"	25 yds
Hobbs Tuscany Superwashed Premium Wool Resin Bonded	hand-cut and hand-folded makes for less creasing	no	no	1/4 - 3/8"	3 - 5%	4"	Natural	TWBY-96	96"	30 yds
								TWBRD-96	96"	10 yds
								PK-TW-96	96"	108"
								PK-TW-120	120"	120"
Hobbs Tuscany 80% Cotton 20% Wool Resin Bonded	so so soft to the touch!	no	no	1/8" +	3 - 5%	4"	Natural	PK-TCW-96	96"	108"
								TCWBRD-96	96"	10 yds

BAMBOO is soft, silky, eco-friendly and lightweight. It typically has a thin scrim and is naturally anti-microbial. While ideal for machine quilting, selection is still quite limited.

Pellon 50% Viscose Bamboo 50% Cotton	moisture-wicking	yes	yes	1/16"	2 - 3%	8 - 10"	Natural	BR-96	96"	30 yds
								BB-96	96"	9 yds

SILK provides luxurious body and drape. It is lightweight and typically does not shrink. While it works good for both hand and machine quilting, it is damaged by exposure to direct sunlight.

Hobbs Tuscany 90% Silk 10% Resin Bonded Polyester	warmth without weight; clothing	yes	no	1/8"	3 - 5%	4"	Natural	PK-TS-96	96"	108"
